Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 23 of the 98 other time tracking apps we grade

Worksnaps is a time tracker for remote teams and contractors. A desktop client records time and activity and takes screenshots, and managers review them in a web account, with reports and invoicing. Plans are flat monthly prices by number of tracked users, and the account owner is not counted.

To get you started, here are **9 things to know about Worksnaps**, taken from its own pages and our grades.

>
> **You install a desktop client and set up projects and observers.**
>
> From our grade for ease of use

1 **Best for screenshot tracking for remote contractors**

Worksnaps captures screenshots and activity for remote workers, with a free plan for one user and one project.

2 **Paid plans start at $20 a month**

As its pricing page puts it: $20 per month for up to 4 users, billed monthly.

3 **There is a free plan**

Free plan for yourself with one project; paid plans add users, with unlimited projects.

4 **It runs on 4 platforms**

Web, Windows, macOS and Linux.

5 **Screenshots and activity**

A desktop client reports time and computer activity to the server and captures screenshots for managers to review.

6 **Live work view**

Managers see what a team is working on as it happens instead of waiting for an end-of-day or end-of-week report.

7 **Reports and invoicing**

Reporting and invoicing are included on all plans, with two years of stored screenshots.

8 **A 2.2 GPA, above 23 of 98**

That is against the other time tracking apps we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

The plain part of Worksnaps you could make: time tracking, reports and invoicing. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

Best for screenshot tracking for remote contractors

Worksnaps captures screenshots and activity for remote workers, with a free plan for one user and one project. Paid plans are priced by headcount, from $20 a month for 4 users, and it has no phone apps.

TOOLGPA REPORT CARD	Worksnaps	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	B	$20 a month covers the owner plus 4 users, about $4 a head, inside the cheapest quarter ($4.50). Past 30 users each added user is $3.
Free plan and trial	C	The free plan is one user and one project, and paid plans have a 30-day trial with no card.
Features	C	Screenshots, live work view, reports and invoicing. It's a narrow, screenshot-led tool with a client app per computer.
Ease of use	C	No store rating on record. You install a desktop client and set up projects and observers.
Platforms and integrations	C	Web, Windows, Mac and Linux, with Basecamp, Harvest, Freshbooks, Asana and an API. No phone apps.
Grade point average		Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Worksnaps is for

- ✓ Fits if you pay remote contractors by the hour and want screenshots as proof
- ✓ Works for small teams that like a flat price by headcount

Who it is not for

- ✗ Tight if you are free-only, since the free plan is 1 user and 1 project
- ✗ Skip it if you want phone tracking, as only desktop clients are listed
- ✗ Not for you if you dislike screenshots, because they are core to the product
- ✗ Watch out: charges go through PayPal, paid plans are month to month, and past 30 users it's $3 per extra user

Good to know

Good for

- ✓ Businesses paying remote contractors by the hour
- ✓ Small teams that prefer one flat monthly price over per-user billing
- ✓ Freelancers who want a free single-project tracker

Worth knowing

- ⓘ The free plan covers one user and one project only.
- ⓘ Past 30 users each added user costs $3 per month, and plans are priced by user count rather than features.
- ⓘ Subscriptions are charged through PayPal, and the paid plans are month to month.
- ⓘ Screenshot capture is core to the product, so staff need to be told.

Where it stands

Its grades against its category, and whether to keep it or make your own

23/98

Other time tracking apps it is graded above

Worksnaps's GPA of 2.2 is higher than 23 of the 98 other time tracking apps we grade, and level with 17.

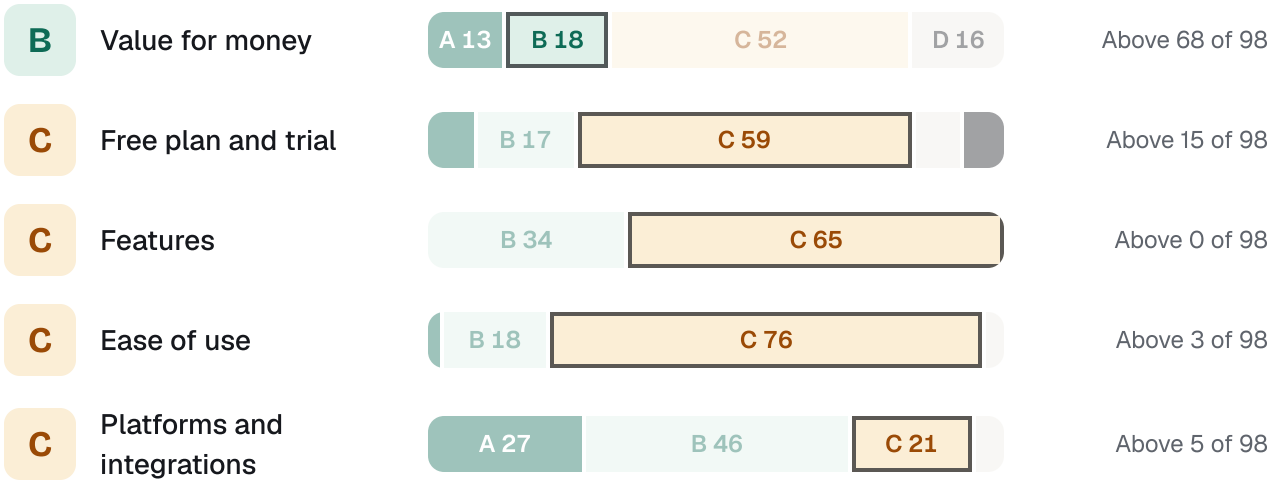

It stands best on value for money (B, above 68 of 98) and worst on features (C, above 0).

Its paid plans start at $20 a month, against a middle price of $6.99 for the category: 74 of the 80 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 68 tools score higher and cost less.

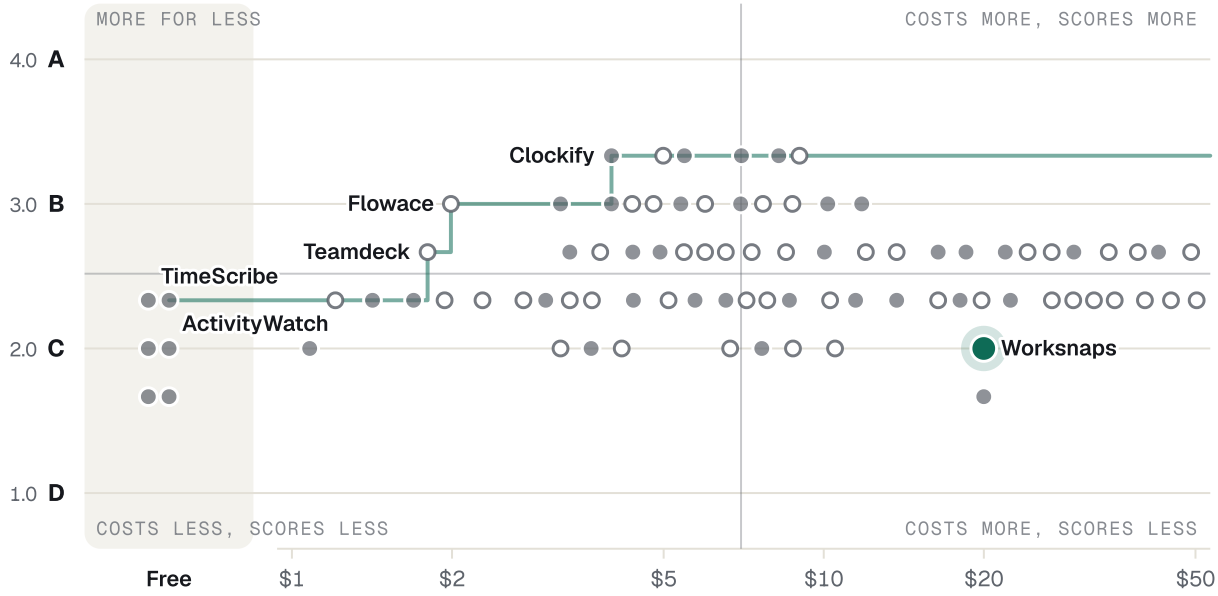

Each grade against the category

Every bar is all 99 time tracking apps we grade, cut by the letter each got. Worksnaps's own letter is outlined.

Price against what you get

Each dot is one of 87 time tracking apps. Further left costs less; higher up scores better on features, ease of use and platforms. Worksnaps is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Worksnaps you could make: time tracking, reports and invoicing. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 58 of the 98 other time tracking apps grade higher. It costs $240 a year.

What you could make

- Time tracking, reports and invoicing: an app builder makes these well.

What you could not

- Capture tools hooked into the operating system.

- Apps for macOS, Windows and Linux that stay in step with each other.

What this rests on. Worksnaps's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
