Who WP Review Slider Pro is for

- ✓ Fits if you run WordPress and want reviews from Google and Yelp on your pages
- ✓ Works for people who prefer a one-time lifetime price

Who it is not for

- ✕ Skip it if you want a free plan, as there is only a 7-day trial
- ✕ Not for you if you are not on WordPress, as showing reviews elsewhere needs the Embed add-on
- ✕ Watch out: a lapsed yearly licence stops updates, support and cloud downloads
- ✕ Watch out: plans differ by site count only, and Multisite sub-sites each count

Good to know

Good for

- ✓ WordPress sites that want Google, Facebook or Yelp reviews shown on pages
- ✓ Agencies that need one license across many client sites
- ✓ Owners who prefer a one-time lifetime license to a subscription

Worth knowing

- ⓘ It runs only inside WordPress; showing reviews elsewhere needs the separate Embed add-on.
- ⓘ A lapsed yearly license keeps existing reviews but stops plugin updates, support and cloud Review Funnel downloads.
- ⓘ Plans differ only by site count (1, 5 or 50), and each WordPress Multisite sub-site counts toward the limit.
- ⓘ Review Funnel downloads come with 2,000 free credits a year per plan.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of WP Review Slider Pro you could make: review collection and templates. What surrounds it you could not. The 4 things listed below take a company, not a weekend.

It costs $29 a year.

What you could make

- Review collection and templates: an app builder makes these well.

What you could not

- It plugs into other products, WordPress, Google and Facebook among them.

- ✕ AI features, unless you pay a model provider for each request yourself.
- ✕ Hooks into the device itself: widgets.
- ✕ The depth: we grade its features B, which means it covers the whole job.

What this rests on. WP Review Slider Pro's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
