07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Yeastar's own pages, its app-store listings and our grades. Every fact in it is on Yeastar's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.6

GPA, above 35 of the 44 other business phone systems we grade

Yeastar makes the P-Series phone system, a PBX that comes as a cloud service, as software you install, or as an appliance, with Linkus apps for calling, chat and meetings. It also sells contact center, messaging and AI add-ons, and sells through partners and service providers.

To get you started, here are **8 things to know about Yeastar**, taken from its own pages and our grades.

> "
>
> **A PBX has phones, trunks and extensions to configure.**
>
> From our grade for ease of use

1 **Best for IT teams that run their own phone system**

No prices are published on the pages read, and the cheapest plan is appliance only.

2 **You can try it first**

30-day free trial of the Cloud PBX, with no credit card required.

3 **It runs on 5 platforms**

Web, macOS, Windows, iOS and Android, with a browser extension too.

4 **Three editions**

The P-Series PBX runs as an appliance on the Standard plan, and as an appliance, software or cloud service on the Enterprise and Ultimate plans.

5 **Linkus UC clients**

Web, iOS and Android, Windows and macOS clients plus a Chrome extension for calls, team chat, meetings and call recordings.

6 **Call center and outbound dialing**

Queues, wallboards, agent coaching and call recording, with progressive, power and agentless auto-dialing for outbound campaigns.

7 **A 2.6 GPA, above 35 of 44**

That is against the other business phone systems we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Yeastar you would be making phone numbers and calls carried over the phone network. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for IT teams that run their own phone system

Yeastar sells its P-Series PBX as an appliance, software or cloud service, with apps on every platform, a call center, a shared inbox and AI transcription. No prices are published on the pages read, and the cheapest plan is appliance only.

TOOLGPA REPORT CARD	Yeastar	Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; the site shows a feature comparison and a trial instead, so it sits at the middle.
Free plan and trial	C	A 30-day free trial of the Cloud PBX with no credit card. No free plan.
Features	B	Queues, wallboards, outbound dialing, a shared inbox for chat, SMS and WhatsApp, AI transcripts and 500+ IP phone models. Nothing in the listing is missing from the phone job; hot standby is not offered on the cloud edition.
Ease of use	C	No store rating on record. A PBX has phones, trunks and extensions to configure.
Platforms and integrations	A	Web, Mac, Windows, iOS and Android clients and a Chrome extension, plus Microsoft Teams, Outlook, Zoho CRM, Oracle Opera and WhatsApp.

Grade point average Good, out of 4.0 **2.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Yeastar is for

- ✓ Fits if you want to run a PBX in your own cloud or on site
- ✓ Works for businesses that want to keep their existing SIP trunk and IP phones

Who it is not for

- ✗ Skip it if you want prices up front, because none appear on the pages read
- ✗ Not for you if you want cloud or software on the Standard plan, which is appliance only
- ✗ Tight if you need hot standby on the cloud edition, which does not offer it
- ✗ Watch out: part of the platform, such as NovoOne, is aimed at service providers
- ✗ Watch out: the trial covers the Cloud PBX only

Good to know

Good for

- ✓ IT teams that want to run a PBX on-premises or in their own cloud
- ✓ Resellers and service providers that white-label a phone system
- ✓ Businesses that want to keep their existing SIP trunk and IP phones

Worth knowing

- ⓘ No prices are published on the pages read; the site shows a feature comparison and a free trial instead.
- ⓘ The Standard plan is appliance-only; the software and cloud editions need the Enterprise or Ultimate plan.
- ⓘ Hot standby needs an extra redundancy server and does not apply to the cloud edition.
- ⓘ Part of the platform, such as NovoOne, is aimed at service providers rather than single businesses.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Yeastar's current pricing could not be confirmed from its own site.

> **No price is published; the site shows a feature comparison and a trial instead, so it sits at the middle.**
>
> From our grade for value for money

We could not confirm Yeastar's current prices from its own site, so this guide lists no plans. yeastar.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

6

Places it runs: Web, macOS, Windows, iOS, Android and Browser extension

P-Series PBX in cloud, software or appliance editions. Here is what it does, as its own site describes it, and what it covers: transcription, video calls, business phone line, business texting, whatsApp messaging.

> **Nothing in the listing is missing from the phone job; hot standby is not offered on the cloud edition.**
>
> From our grade for features

Three editions

The P-Series PBX runs as an appliance on the Standard plan, and as an appliance, software or cloud service on the Enterprise and Ultimate plans.

Linkus UC clients

Web, iOS and Android, Windows and macOS clients plus a Chrome extension for calls, team chat, meetings and call recordings.

Call center and outbound dialing

Queues, wallboards, agent coaching and call recording, with progressive, power and agentless auto-dialing for outbound campaigns.

Shared customer inbox

Website live chat, SMS, WhatsApp and Facebook messages arrive in one inbox, with bulk messaging for outreach.

Built-in AI

Call transcription and summaries, voicemail-to-text, text-to-speech prompts and an AI receptionist for greetings and routing.

Phones and SIP trunks

The cloud edition lists compatibility with 500+ IP phone models and 210+ SIP trunk providers so existing numbers can be kept.

Where it runs

- Web
- macOS
- Windows
- iOS
- Android
- Browser extension

What it works with

- Microsoft Teams
- Microsoft Outlook
- Zoho CRM
- Oracle Opera PMS
- WhatsApp

Yeastar is made by Xiamen Yeastar Digital Technology Co., Ltd.

Where it stands

Its grades against its category, and whether to keep it or make your own

35/44

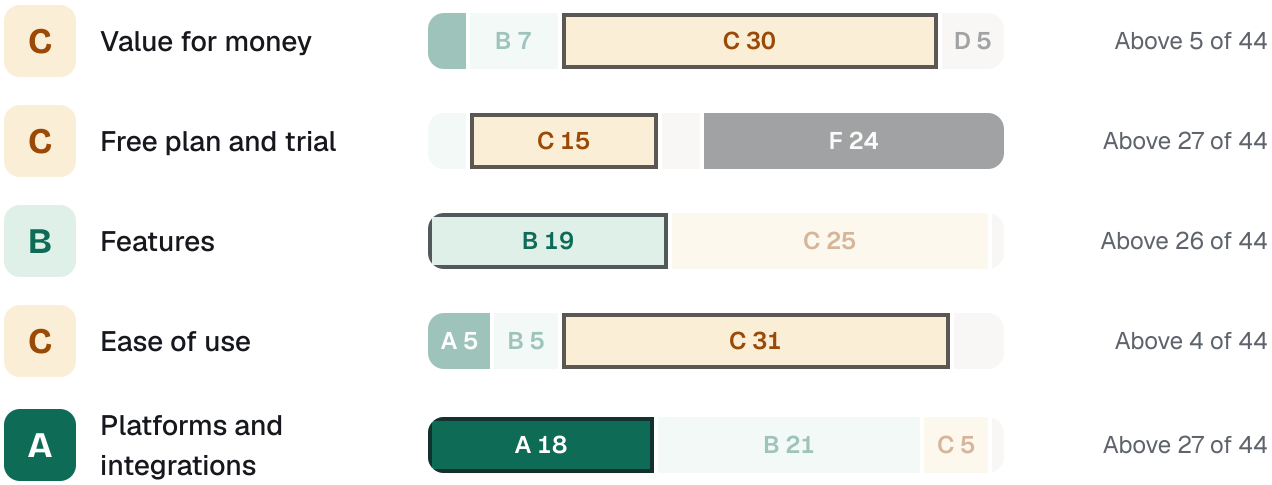

Other business phone systems it is graded above

Yeastar's GPA of 2.6 is higher than 35 of the 44 other business phone systems we grade, and level with 4.

It stands best on platforms and integrations (A, above 27 of 44) and worst on ease of use (C, above 4).

Each grade against the category

Every bar is all 45 business phone systems we grade, cut by the letter each got. Yeastar's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Yeastar you would be making phone numbers and calls carried over the phone network. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.6 is higher than 35 of the 44 other business phone systems we grade.

What you could not

- ✕ Phone numbers and calls carried over the phone network.
- ✕ Video calls.
- ✕ The WhatsApp Business API, which Meta opens only through approved partners.
- ✕ Texts from a business number, registered with the carriers.
- ✕ Speech turned into text you can trust.
- ✕ Apps for macOS, Windows, iOS and Android that stay in step with each other.
- ✕ It plugs into other products, Microsoft Teams, Microsoft Outlook and Zoho CRM among them.
- ✕ People on the other end: coaches. No app builder makes those.
- ✕ The depth: we grade its features B, which means it covers the whole job.

What this rests on. Yeastar's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

FreePBX, Sangoma, Zultys and RingCentral

The 4 tools Yeastar is most often weighed against, with where each one differs from it.

FreePBX
