Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

YTLarge is free, so making your own would save you nothing.

And it is not the kind of software a weekend replaces.

What you could not

- ✕ Search volumes for millions of keywords, gathered and kept up to date.
- ✕ Search data for YouTube topics and channels.

What this rests on. YTLarge's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
