07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from YuJa's own pages, its app-store listings and our grades. Every fact in it is on YuJa's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 42 of the 133 other screen recording and video tools we grade

YuJa's Lumina Video Platform is a cloud video content system for storing, managing, streaming and captioning video, paired with Capture Cloud tools for lecture capture and live streaming. It is built mainly for education and other regulated sectors and integrates with learning management systems. Licenses are quoted per customer.

> "
>
> **A school rollout with LMS links and capture hardware to set up.**
>
> From our grade for ease of use

To get you started, here are **8 things to know about YuJa**, taken from its own pages and our grades.

1 **Best for lecture capture and video for schools and universities**

Licenses are quoted per customer, the GenAI module and some others are sold separately, and the trial terms aren't stated.

2 **You can try it first**

Free trial program and paid pilot programs, per the pricing page

3 **It runs on Web**

Web.

4 **Video cloud**

Lumina stores, organizes and streams media, with a branded VideoTube portal, captioning, search and a video and image editor.

5 **Lecture capture**

Capture Cloud covers software, browser, mobile and hardware recording, including 1U rack appliances for capture and encoding, plus live streaming.

6 **LMS integration**

Connects to existing learning management systems, and video quizzes can sync scores to the LMS gradebook.

7 **A 2.2 GPA, above 42 of 133**

That is against the other screen recording and video tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace YuJa you would be making a video editor. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for lecture capture and video for schools and universities

YuJa is a cloud video platform with lecture capture, live streaming, captioning and links into learning management systems, built mainly for education. Licenses are quoted per customer, the GenAI module and some others are sold separately, and the trial terms aren't stated.

TOOLGPA REPORT CARD — **YuJa** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No list prices. Each license is quoted, so there is nothing to grade against the category.
Free plan and trial	D	A free trial program and paid pilots are mentioned, but the pricing page gives no terms, length or card details.
Features	B	Video storage, a branded portal, captioning, lecture capture software and hardware, live streaming, LMS gradebook sync and analytics. The GenAI PowerPack is an extra module.
Ease of use	C	No store rating on record. A school rollout with LMS links and capture hardware to set up.
Platforms and integrations	B	Web platform with browser, mobile and hardware capture and LMS integrations. No list of named apps or operating systems.

Grade point average — Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who YuJa is for

- ✓ Fits if you run lecture capture at a school or university and need LMS links
- ✓ Works for IT teams that want captioning and compliance tools in one video cloud

Who it is not for

- ✕ Skip it if you want a price on the page, as each license is customised
- ✕ Not for you if you are a solo creator, since it is built for institutions
- ✕ Watch out: the GenAI PowerPack, FeedbackFlow and Himalayas archiving are separate modules
- ✕ Watch out: the trial and pilot terms aren't stated on the pricing page

Good to know

Good for

- ✓ Universities and colleges needing lecture capture with LMS links
- ✓ Regulated organizations that need accessible, captioned video
- ✓ Institutions that want to record in classrooms with hardware

Worth knowing

- ⓘ No list prices: the pricing page says each license is customized, with a request-a-quote form and a price match promise.
- ⓘ The GenAI Video PowerPack and the FeedbackFlow and Himalayas archiving modules are listed as separate modules.
- ⓘ A free trial and paid pilot programs are mentioned, but their terms are not stated on the pricing page.
- ⓘ The page mentions mobile and tablet capture apps without naming operating systems.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

YuJa's current pricing could not be confirmed from its own site.

> **Each license is quoted, so there is nothing to grade against the category.**
>
> From our grade for value for money

We could not confirm YuJa's current prices from its own site, so this guide lists no plans. yuja.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Video platform and lecture capture for schools and enterprises. Here is what it does, as its own site describes it, and what it covers: AI features, screen recording, video editing.

> **Video storage, a branded portal, captioning, lecture capture software and hardware, live streaming, LMS gradebook sync and analytics.**
>
> From our grade for features

Video cloud

Lumina stores, organizes and streams media, with a branded VideoTube portal, captioning, search and a video and image editor.

Lecture capture

Capture Cloud covers software, browser, mobile and hardware recording, including 1U rack appliances for capture and encoding, plus live streaming.

LMS integration

Connects to existing learning management systems, and video quizzes can sync scores to the LMS gradebook.

Video analytics

Reports on how video is watched and its impact, with actionable insights for instructors and administrators.

GenAI Video PowerPack

An add-on module that automates audio descriptions, interactive Q&A, multilingual versions and video navigation.

Where it runs

Web

What it works with

Its own pages name no integrations.

YuJa is made by YuJa.

Where it stands

Its grades against its category, and whether to keep it or make your own

42/133

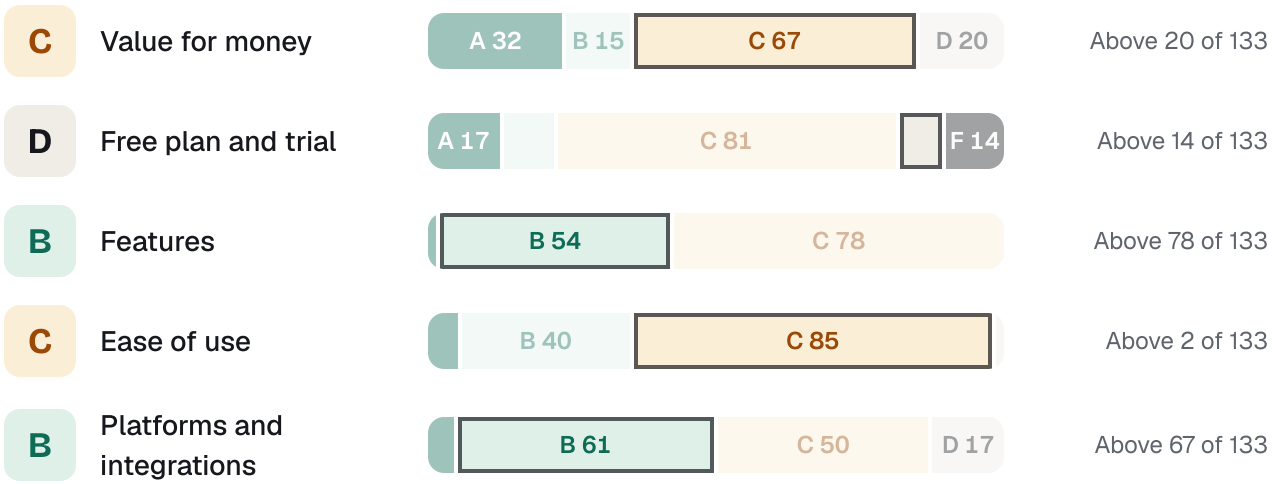

Other screen recording and video tools it is graded above

YuJa's GPA of 2.2 is higher than 42 of the 133 other screen recording and video tools we grade, and level with 23.

It stands best on features (B, above 78 of 133) and worst on free plan and trial (D, above 14).

Each grade against the category

Every bar is all 134 screen recording and video tools we grade, cut by the letter each got. YuJa's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace YuJa you would be making a video editor. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 68 of the 133 other screen recording and video tools grade higher.

What you could not

- ✕ A video editor.
- ✕ Recording the screen with its sound, and somewhere to keep the video.
- ✕ AI features, unless you pay a model provider for each request yourself.
- ✕ The depth: we grade its features B, which means it covers the whole job.

What this rests on. YuJa's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Panopto, Kaltura, Echo360, Vbrick and Qumu

The 5 tools YuJa is most often weighed against, with where each one differs from it.

2.0 GPA

Panopto

Paid

Enterprise video platform for lecture capture and training.

- YuJa also covers video editing.
- Panopto also covers transcription.

YuJa and Panopto compared in full

2.2 GPA

Kaltura

Paid

Video platform for education, enterprise and media, sold by quote.

- YuJa also covers screen recording and video editing.
- Kaltura also covers video calls and webinars.

YuJa and Kaltura compared in full

1.6 GPA

Echo360

Paid

Video, polling and exam platform for education and training.

YuJa and Echo360 compared in full

2.0
GPA

Vbrick

Paid

Enterprise video platform with live streaming and eCDN.

- YuJa also covers screen recording and video editing.
- Vbrick also covers reports and webinars.

YuJa and Vbrick compared in full

1.6
GPA

Qumu

Paid

Enterprise video management, live broadcast and video portals.

- YuJa also covers screen recording and video editing.
- Qumu also covers reports.

Quick answers

The questions people ask about it, each answered in a line or two

9

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is YuJa free?

No, YuJa is a paid product, but you can try it first. Free trial program and paid pilot programs, per the pricing page.

What platforms does YuJa work on?

YuJa is available on Web.

Does YuJa have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. YuJa is listed for Web.

Does YuJa have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. YuJa is listed for Web.

Is YuJa open source?

YuJa is not described as open source on its own site, as read on Nov 13, 2026.

Who makes YuJa?

YuJa is made by a company of the same name.

What are the alternatives to YuJa?

The closest alternatives to YuJa in our directory are Panopto, Kaltura, Echo360, Vbrick and Qumu.

How does YuJa compare with other screen recording and video tools?

YuJa's GPA of 2.2 is higher than 42 of the 133 other screen recording and video tools we grade, and level with 23.

Could I make my own version of YuJa?

To replace YuJa you would be making a video editor. That is not a weekend's work, with an AI app builder or without one.

Where this guide comes from

The prices, plans, platforms and features were read from YuJa's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from YuJa's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by YuJa. Prices change, so check yuja.com before you buy.

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at **toolgpa.com**.
