Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 31 of the 87 other field service apps we grade

Zinier FSM is a cloud field service platform for large operations in telecom, utilities, renewables, EV charging and manufacturing. It is built in three layers: Core for scheduling, dispatch, inventory and mobile work, Intelligence for AI monitoring and agents, and Studio for no-code changes. The vendor publishes no prices.

To get you started, here are **7 things to know about Zinier**, taken from its own pages and our grades.

> **No price is published, access is by demo request, and it is more than a small trade business needs.**
>
> From our report card of Zinier

1 **Best for enterprise field service with an AI layer**

Zinier is a field service platform for large, multi-region operations, with scheduling, parts, a technician app and an AI layer.

2 **It runs on Web**

Web.

3 Scheduling and dispatch

Core modules cover scheduling and dispatch, capacity management, parts and inventory, asset and tools management, and timesheets.

4 Mobile task execution

Technicians use a mobile app in the field while office teams work in a web browser. Core also lists chat, dynamic audits and a remote assistant.

5 Intelligence layer

AI monitors operations in real time, answers queries, surfaces insights and runs workflow-specific agents. The vendor says decisions keep a human in the loop.

6 A 2.0 GPA, above 31 of 87

That is against the other field service apps we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Zinier you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for enterprise field service with an AI layer

Zinier is a field service platform for large, multi-region operations, with scheduling, parts, a technician app and an AI layer. No price is published, access is by demo request, and it is more than a small trade business needs.

TOOLGPA REPORT CARD	Zinier	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No prices are published; the site points to a demo request.
Free plan and trial	F	No free plan and no trial on the listing.
Features	B	Scheduling, capacity, parts, assets, timesheets, mobile execution and a customer portal cover the job.
Ease of use	C	No store rating on record. Workflows and forms are configured through Studio.
Platforms and integrations	B	A web browser for the office and a mobile app for technicians. No integrations are named.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Zinier is for

- ✓ Fits if you run multi-region field operations at enterprise scale
- ✓ Works for teams that want AI help with dispatch and workflows

Who it is not for

- ✕ Not for you if you run a small trade business
- ✕ Watch out: no price is published
- ✕ Skip it if you want to try it first, since no trial is listed
- ✕ Too light on named integrations, as none are on the listing

Good to know

Good for

- ✓ Telecom, utility and renewable-energy operators with large field workforces
- ✓ Enterprises that need to connect field work to ERP, CRM and OSS/BSS systems

Worth knowing

- ⓘ No prices are published; the site points visitors to a demo request.
- ⓘ Built for multi-region enterprise operations, which is more than a small trade business needs.
- ⓘ The only platforms the vendor names are a web browser for office staff and a mobile app for technicians.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Zinier's current pricing could not be confirmed from its own site.

> **No prices are published; the site points to a demo request.**
>
> From our grade for value for money

We could not confirm Zinier's current prices from its own site, so this guide lists no plans. zinier.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

AI-based field service platform for large enterprise operations. Here is what it does, as its own site describes it, and what it covers: AI features, workflow automation, AI agents, no-code, reports, job scheduling.

> **Scheduling, capacity, parts, assets, timesheets, mobile execution and a customer portal cover the job.**
>
> From our grade for features

Scheduling and dispatch

Core modules cover scheduling and dispatch, capacity management, parts and inventory, asset and tools management, and timesheets.

Mobile task execution

Technicians use a mobile app in the field while office teams work in a web browser. Core also lists chat, dynamic audits and a remote assistant.

Intelligence layer

AI monitors operations in real time, answers queries, surfaces insights and runs workflow-specific agents. The vendor says decisions keep a human in the loop.

Studio configuration

Business teams edit workflows, forms and integrations through visual, no-code tools guided by conversational AI.

Customer-facing modules

Appointment booking, a customer portal and customer communications sit alongside the internal modules.

What it works with

Its own pages name no integrations.

Zinier is made by Zinier.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

31/87

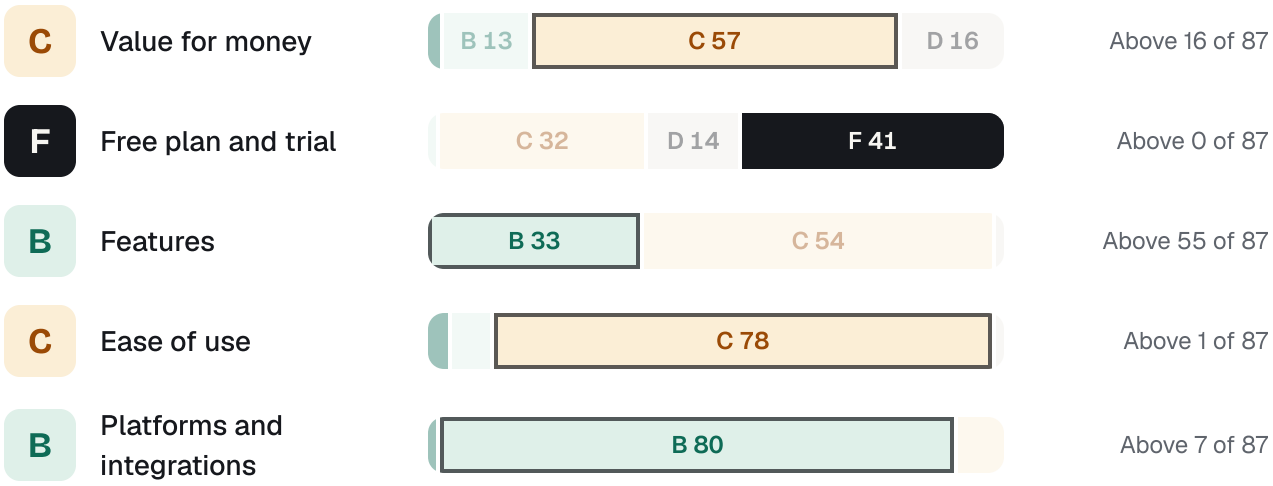

Other field service apps it is graded above

Zinier's GPA of 2.0 is higher than 31 of the 87 other field service apps we grade, and level with 23.

It stands best on features (B, above 55 of 87) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 88 field service apps we grade, cut by the letter each got. Zinier's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Zinier you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

What you could make

- Job scheduling and reports: an app builder makes these well.

What you could not

- An AI agent, with the models and the safeguards behind it.
- A builder that other people can use without writing code.
- Connections to other products, each kept working as those products change.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Zinier's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Skedulo, ServicePower and Totalmobile

The 3 tools Zinier is most often weighed against, with where each one differs from it.

1.8 GPA

Skedulo

Paid

Scheduling and mobile platform for field visits and shift work.

- Zinier also covers no-code and reports.
- Skedulo also covers auto-scheduling and shift scheduling.

Zinier and Skedulo compared in full

2.0 GPA

ServicePower

Paid

Field service software for employed and contracted technicians.

- Zinier also covers AI agents and no-code.

Zinier and ServicePower compared in full

1.6
GPA

Totalmobile

Paid

Enterprise field service scheduling and mobile working platform.

- Zinier also covers workflow automation, AI agents and no-code.
- Totalmobile also covers forms and shift scheduling.

Zinier and Totalmobile compared in full

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

9

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Zinier free?

No. Zinier is a paid product.

What platforms does Zinier work on?

Zinier is available on Web.

Does Zinier have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Zinier is listed for Web.

Does Zinier have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Zinier is listed for Web.

Is Zinier open source?

Zinier is not described as open source on its own site, as read on Nov 13, 2026.

Who makes Zinier?

Zinier is made by a company of the same name.

What are the alternatives to Zinier?

The closest alternatives to Zinier in our directory are Skedulo, ServicePower and Totalmobile.

How does Zinier compare with other field service apps?

Zinier's GPA of 2.0 is higher than 31 of the 87 other field service apps we grade, and level with 23.

Could I make my own version of Zinier?

To replace Zinier you would be making an AI agent, with the models and the safeguards behind it.

Where this guide comes from

The prices, plans, platforms and features were read from Zinier's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Zinier's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Zinier. Prices change, so check zinier.com before you buy.
