Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 23 of the 98 other time tracking apps we grade

Zistemo is a Swiss-hosted business app that combines project time tracking, attendance and absence management, task management and invoicing. Its plans are flat monthly fees that include a set number of users rather than a per-user rate. Prices can be shown in euros, US dollars, Swiss francs or pounds.

To get you started, here are **9 things to know about Zistemo**, taken from its own pages and our grades.

> "
>
> **It's a web app where you set up clients, projects and leave rules before it's useful.**
>
> From our grade for ease of use

1 **Best for time tracking and invoicing for a small team**

Zistemo puts project time, attendance, absence and invoicing in one Swiss-hosted app.

2 **Paid plans start at $15 a month**

As its pricing page puts it: $15 per month for 1 user, billed monthly ($158 per year).

3 **You can try it first**

14-day free trial, no credit card required

4 **It runs on 3 platforms**

Web, iOS and Android.

5 **Project time tracking**

Time tracker on the mobile app, plus monthly or weekly timesheets on the web app, with reminders and planned-versus-actual comparisons.

6 **Attendance time**

Clock-ins, breaks and overtime with automatic flextime balances, escalation rules and detailed time reports.

7 **Absence management**

Several leave types, bank holidays handled automatically, time-off requests and a department calendar.

8 **A 2.2 GPA, above 23 of 98**

That is against the other time tracking apps we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

The plain part of Zistemo you could make: time tracking, time off, invoicing, expense tracking, tasks and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

The report card

Best for time tracking and invoicing for a small team

Zistemo puts project time, attendance, absence and invoicing in one Swiss-hosted app. But plans are fixed blocks of 1, 5 or 15 users, timesheet approval and the employee planner sit on the $75 Enterprise plan, and there is no free plan. If you are one person, $15 a month is a lot for what you get.

TOOLGPA REPORT CARD

Zistemo

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	$15 a month for 1 user ($158 a year), or $45 for 5 users, which is $9 a head. That's in the dearer part of what time trackers charge, and a solo user pays the full $15.
Free plan and trial	C	14-day trial, no card needed, and nothing after that. There's no free plan.
Features	C	Time, attendance, absences, tasks and invoices in one place. Gap: timesheet approval and the employee planner are Enterprise only.
Ease of use	C	No store rating on record. It's a web app where you set up clients, projects and leave rules before it's useful.
Platforms and integrations	B	Web plus iOS and Android, with QuickBooks, Asana, Jira, HubSpot and Slack. No desktop app.

Grade point average Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Zistemo is for

- ✓ Fits if you are a small agency that tracks hours and sends the invoice from the same place
- ✓ Makes sense if your client data has to stay in Switzerland

Who it is not for

- ✗ Skip it if you work alone and want to pay little, since 1 user is $15 a month
- ✗ Tight if you will need more than 5 or 15 users, because extra users on Enterprise cost $5 each
- ✗ Not for you if you need timesheet approval without paying $75 a month for Enterprise
- ✗ Watch out: cancel and the account's data is deleted, so export first, and payment is PayPal or Visa or MasterCard only

Good to know

Good for

- ✓ Small agencies and consultancies that track time and invoice in one place
- ✓ Solo workers, since the entry plan covers one user
- ✓ Teams that want data kept in Switzerland

Worth knowing

- ⓘ Plans include a fixed number of users: 1, 5 and 15. Additional users on Enterprise cost $5 a month each.
- ⓘ Timesheet approval and the employee planner are listed only on the Enterprise plan.
- ⓘ Cancelling an account permanently deletes its data, so export first.
- ⓘ Payment is by PayPal or Visa or MasterCard cards, as stated on the pricing page.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

23/98

Other time tracking apps it is graded above

Zistemo's GPA of 2.2 is higher than 23 of the 98 other time tracking apps we grade, and level with 17.

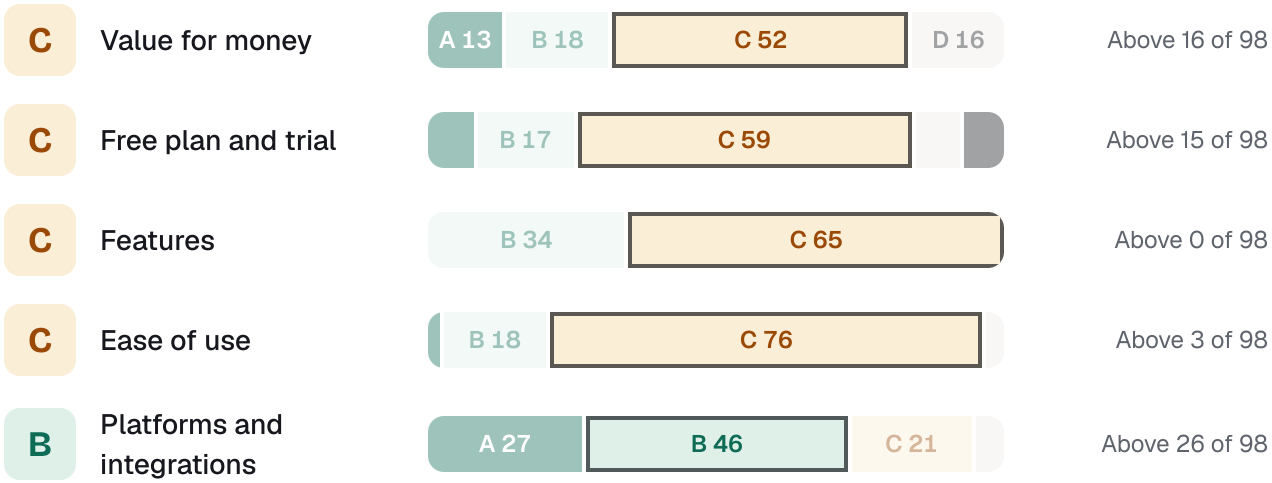

It stands best on platforms and integrations (B, above 26 of 98) and worst on features (C, above 0).

Its paid plans start at $15 a month, against a middle price of $6.99 for the category: 69 of the 80 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 38 tools score higher and cost less.

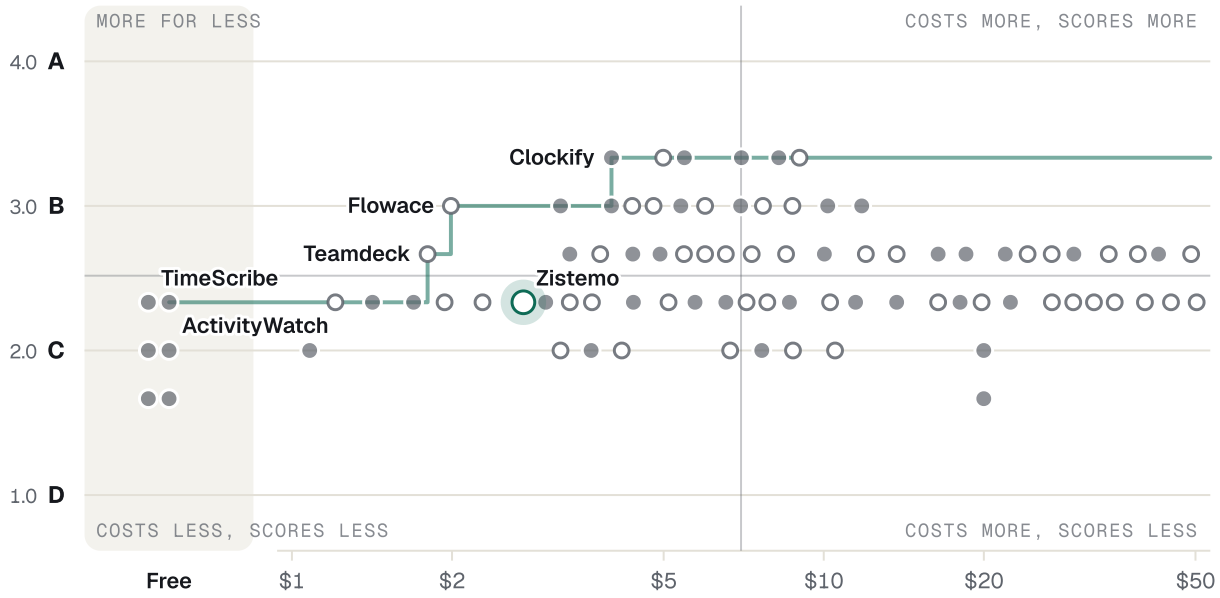

Each grade against the category

Every bar is all 99 time tracking apps we grade, cut by the letter each got. Zistemo's own letter is outlined.

Price against what you get

Each dot is one of 87 time tracking apps. Further left costs less; higher up scores better on features, ease of use and platforms. Zistemo is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Zistemo you could make: time tracking, time off, invoicing, expense tracking, tasks and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 58 of the 98 other time tracking apps grade higher. It costs $180 a year.

What you could make

- Time tracking, time off, invoicing, expense tracking, tasks and reports: an app builder makes these well.

What you could not

- Clocking in from a phone, checked against where and when.
- A real app for iOS and Android. Something home-made would be a web page.
- It plugs into other products, QuickBooks, Asana and Jira among them.

What this rests on. Zistemo's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
